

The diagram shows a QWERTY keyboard layout. The keys are represented as colored boxes with their labels inside. The layout is as follows:

- Top Row:** Esc (blue), Q (blue), W (blue), E (blue), R (blue), T (blue)
- Second Row:** Tab *Ctrl (blue), A (blue), S (blue), D (blue), F (blue), G (blue)
- Third Row:** *Shift (blue), Z (blue), X (blue), C (blue), V (blue), B (blue)
- Fourth Row:** *Alt (blue), *Win (blue), Any 0x5701 (blue), Space (blue), Any 0x5702 (blue)
- Bottom Row:** MO(4) (blue), Any 0x5700 (blue)
- Right Side:** Y (blue), U (blue), I (blue), O (blue), P (blue), BS (blue)
- Second Row (Right):** H (blue), J (blue), K (blue), L (blue), = - (blue), Enter (blue)
- Third Row (Right):** N (blue), M (blue), < , (blue), > . (blue), ? / (blue), ¥ Shift* (blue)
- Fourth Row (Right):** , @ (blue)

The diagram shows a keyboard layout with 15 keys, each containing a downward arrow. The keys are arranged in a grid-like pattern with some keys missing, representing a specific input sequence.

A diagram of a keyboard layout. The keys are arranged in a standard QWERTY pattern. The keys are labeled as follows:

- Row 1: Four keys with downward-pointing triangles.
- Row 2: Two keys with downward-pointing triangles, followed by a key labeled `*Shift`, a key labeled `MO(3)`, a key labeled `MO(5)`, and a key with a downward-pointing triangle.
- Row 3: Two keys with downward-pointing triangles, followed by a key with a downward-pointing triangle, and a key labeled `Space`.
- Row 4: A key with a downward-pointing triangle, followed by a key with a downward-pointing triangle.
- Row 5: Three keys with downward-pointing triangles.

Below the main keyboard, there are three additional keys with downward-pointing triangles, arranged in a slightly curved line.

The diagram shows a keyboard layout with keys labeled as follows:

- Row 1: Four keys with downward-pointing triangles.
- Row 2: Two keys with downward-pointing triangles, followed by a key labeled `*Shift`, and three keys with downward-pointing triangles.
- Row 3: Two keys with downward-pointing triangles, followed by a key with a downward-pointing triangle, a key with a downward-pointing triangle, and a key labeled `Space`.
- Row 4: One key with a downward-pointing triangle, followed by a key with a downward-pointing triangle, and three keys with downward-pointing triangles.
- Row 5: Three keys with downward-pointing triangles.

On the right side of the diagram, there is a separate set of keys:

- Row 1: Four keys labeled `(*S+2)`, `(*S+8)`, `(*S+9)`, and `=`.
- Row 2: Four keys labeled `"`, `(`, `)`, and `-`.
- Row 3: Four keys labeled `(*S+7)`, `{`, `}`, and `(*S+6)`.
- Row 4: Four keys labeled `,`, `[`, `]`, and `&`.
- Row 5: Four keys labeled `(*S+@)`, `(*S+[)`, `(*S+)]`, and `|`.
- Row 6: Four keys labeled ```, `{`, `}`, and `¥`.
- Row 7: Four keys labeled `~`, `^`, `BS`, and `+`.
- Row 8: Four keys labeled `*`, `:`, `;`, and `*`.
- Row 9: Four keys labeled `?`, `/`, `¥`, and `¥`.
- Row 10: One key with a downward-pointing triangle.

At the bottom left, there are three keys with downward-pointing triangles, and at the bottom right, there are two keys with downward-pointing triangles.

A diagram of a keyboard layout with 12 keys. The keys are arranged in a grid-like pattern. The first row has 4 keys, the second row has 4 keys, the third row has 4 keys, and the fourth row has 4 keys. Each key contains a downward-pointing triangle.

A diagram of a keyboard layout. The left side shows a grid of keys: the top row has three keys with downward-pointing triangles; the second row has a key with a downward-pointing triangle, a key labeled 'Kb 10', and a key with a downward-pointing triangle; the third row has a key with a downward-pointing triangle, a key labeled 'Kb 1', and a key with a downward-pointing triangle; the fourth row has a key with a downward-pointing triangle, a key with a downward-pointing triangle, and a key with a downward-pointing triangle; the fifth row has a key with a downward-pointing triangle, a key with a downward-pointing triangle, and a key with a downward-pointing triangle. To the right of this grid are three keys with downward-pointing triangles, each on its own line. The right side shows a grid of keys: the top row has keys labeled 'F10', 'F7', 'F8', 'F9', 'Print Screen', and 'Del'; the second row has keys labeled 'F11', 'F4', 'F5', 'F6', a key with a downward-pointing triangle, and a key with a downward-pointing triangle; the third row has keys labeled 'F12', 'F1', 'F2', 'F3', a key with a downward-pointing triangle, and a key with a downward-pointing triangle; the fourth row has a key with a downward-pointing triangle, a key with a downward-pointing triangle, and a key with a downward-pointing triangle. To the left of this grid are two keys with downward-pointing triangles, each on its own line.
